

AI Trusted Advisors – Voice AI Case Study

■ Dental Offices

Client Challenge: Dental practices missed 25–30% of calls during peak hours, leading to lost patients and staff burnout.

Voice AI Solution: Voice AI integrated with practice management software, booked/rescheduled appointments, answered insurance/payment FAQs, and handled after-hours calls.

Results in 30–60 Days: 22% increase in booked appointments, hold times reduced to zero, ROI in 30–45 days.

How They Benefited:

- Instant patient booking
- Staff less stressed
- Captured patients who'd go to competitors
- Higher satisfaction and referrals

Key Benefits:

- No missed patient calls
- Higher conversion rates
- Reduced staff burnout
- 24/7 patient service

"With Voice AI, we never miss a patient call anymore."
